RESOURCE DIRECTORY

**Containing information on UM CAMPUS RESOURCES
for helping students enhance the qualities and competencies
that characterize a successful student
at the University of Maryland**

**A service of the Counseling Center Retention Study Group
Compiled by Patricia Hunt**

FOREWORD

The ultimate goal of degree-seeking undergraduate students is academic success leading to the baccalaureate degree. In support of this goal, the University of Maryland provides a comprehensive array of resources designed to assist students as they meet the challenges of college.

The RESOURCE DIRECTORY is a listing and description of campus services keyed to the academic, personal and interpersonal competencies necessary for success as a Maryland student. The resources found here encompass issues related to academic, vocational, personal, and interpersonal identity development. Among the many forms of help are services such as workshops, support groups, individual counseling, and consultation, as well as printed material, audiotapes and videotapes. In most cases, a hyperlink will connect to the particular resource's website for access to the most updated information.

Please consider the RESOURCE DIRECTORY as a "first stop" for identifying options that meet students' academic and personal growth needs. We hope that users will find that the services listed in the directory reflect both the diversity and the commonality of students' interests, challenges, and goals.

BEING AWAY FROM HOME

STUDENT CLUBS AND ORGANIZATIONS

- **GET INVOLVED!** There are over 400 active student clubs and organizations on campus. Research tells us that students who get involved in the campus community do better academically than students who don't get involved. Not only is it likely that you will learn more, but you'll open up doors to new friendships, support, and experiences. There is much to be learned at Maryland, in and out of the classroom. DISABILITY ISSUES

SERVICES

Disability Support Service (DSS) coordinates services that ensure individuals with disabilities equal access to University of Maryland College Park programs. DSS approaches this mission in three ways:

We provide and coordinate direct services for students, faculty, staff, and campus visitors with disabilities. Services are tailored to meet the needs of individuals based on their specific disabilities. Presently, the services provided by DSS include but are not limited to: testing services for students needing accommodations for classroom exams; interpreting and captioning services for individuals who are Deaf and hard of hearing; readers for students and faculty who are blind and visually impaired as well as for individuals who have learning disabilities; priority registration services; library and laboratory assistance, note-taking services, campus transportation services and classroom and campus wide accommodations.

We educate and provide consultation to University faculty, staff, and administrators in order to increase their awareness and sensitivity toward individuals with disabilities

We provide students and staff with disabilities the opportunity to gain the skills necessary to effectively advocate for themselves within the University community

- **EDCP 108C:** A 12-week one-credit course helping students learn about themselves and how to make good decisions when choosing an academic major.

Quotes from students describing what they liked best about **EDCP108C**

- Being able to hear other people talk about the majors they researched, and exploring majors that way.
- Taking the instruments and getting the feedback on what I like and what I'd be good at.
- It made me realize that it is OK to not know yet what I will major in – others are in the same position.
- Hearing from other students about their decision process and the problems they have encountered.

CAREER EXPLORATION

- **Career Assistance Appointments:** to help answer questions regarding resumes, interviewing, and job search strategies, and to connect you with information, specific programs, and sources to help you make informed career decisions. INTERNSHIP INFORMATION

- **EDCP108J:** Academic Transition into Internships: designed to provide students with the full experience of searching for, obtaining, finding and successfully an internship.

- **UNIV099:** Internship Seminar: This course is designed to complement a supervised work experience, and provides students an opportunity to combine academic and "real world" experiences, and to learn more about a specific professional field, while developing professional work skills and enhance marketability to future employers.

- **InternExpress:** Regular drop-in time at the University Career Center and The President's Promise for personalized assistance. See website for times.

Why do an internship?

Personal: Fosters maturity, self-confidence, and human relations skills and prepares you for life after graduation and integrates your values with your work.

Academic: Allows you to integrate classroom theory with real-life experiences, demonstrates the relevance of your course work, increases your motivation to learn, and provides access to resources not available on campus.

Professional: Allows you to explore a potential career field, develop career-related skills and abilities, establish a work history, observe professional people and behavior, learn job hunting/holding abilities, and build a network of contacts.

Financial: Many internships are not paid, but the ones that are can help with college expenses.
