Redirect to a Specific URL upon Survey Completion

1. Within the survey you are hoping to edit, click on “Survey Options.”

![Survey Options](image)

2. Navigate to the block called “Survey Termination” and select “redirect to a full URL.”

You can enter any website here – if you would like respondents to be transferred to the website for a specific program, you can enter that here.

When conducting a survey on a single device which requires students to login through CAS, the completion of a survey does not log them out of CAS, that is, the next student to take the survey on that device would have their response tabulated under the previous respondents DirectoryID. To prevent this by forcing students to logout after the survey submission, select this option and enter as the website: http://login.umd.edu/cas/logout
